

MAHARISHI INTERNATIONAL UNIVERSITY

February 25, 2019

Dear Friends and Supporters of MIU,

It is exciting for me to share the news of Maharishi International University's remarkable expansion and growing good fortune. Just last week, nearly 300 new students enrolled for our Spring semester—making this the largest mid-year student intake in MIU's 50-year history. Just as exciting, new campus construction and renovations are commencing all across the campus. And brand-new academic programs and initiatives are sprouting up—on campus and across the world, with exciting new partnerships with top universities in China, India, South Africa, and Ethiopia.

These *Capital Campaign* web pages lay out the most ambitious and exciting Capital Campaign ever. Not only are the projects groundbreaking, but many are already funded or partially funded! Since the launching of this Campaign just days ago, major funding has already been received to support some of these major projects. And 50% matching funds have already been received to help fund a great many more.

In short, the enthusiasm and support for this Campaign are unprecedented, and the momentum is already great—*right off the starting block!*

I think you will find this *Capital Campaign* tremendously inspiring. And I do hope you will give generously!

With my very best wishes,
